

RECOVER™ PRO

O₂ Response Bag (TS2 Ready™)

M5008

The RECOVER™ PRO O₂ Response Bag was designed to easily transport and quickly deploy your oxygen supply and related equipment. The large quick-open main compartment can support up to a MJD oxygen cylinder/regulator along with a BVM and other airway equipment. 2 removable TS2 Ready™ modules can be added to the bag's sides to carry additional supplies. Packed with features, the RECOVER™ PRO oxygen backpack system delivers the quality, reliability, and functionality you expect when you're called into action.
